Computer Intelligence Activity

Part I

A program passes the Turing Test if a person can have a conversation with both it and a person and not be able to tell which one is the computer.

Try each of these chatterbots with questions you were assigned.

1. Try to chat with Eliza (http://nlp-addiction.com/eliza/). How realistic is she? Would she pass the Turing Test?
2. Try to chat with Alan (http://www.a-i.com/show_tree.asp?id=115). How realistic is he? Would he pass the Turing Test?
3. Try to chat with Dr. Romulon (http://nlp-addiction.com/chatbot/dr.romulon/). How realistic is he? Would he pass the Turing Test?
4. Try to chat with Skynet (http://home.comcast.net/~chatterbot/bots/AI/Skynet/). How realistic is he? Would he pass the Turing Test?
5. Try to chat with Chato (http://nlp-addiction.com/chatbot/chato/). How realistic is he? Would he pass the Turing Test?
6. Try to chat with Alice (http://alice.pandorabots.com/). How realistic is she? Would she pass the Turing Test?
7. Try to chat with Elbot (http://www.elbot.com/). How realistic is she? Would she pass the Turing Test?
8. Try to chat with Mitsuku (http://www.mitsuku.com/). How realistic is she? Would she pass the Turing Test?
9. Try to chat with JabberWacky (http://jabberwacky.com/). How realistic is she? Would she pass the Turing Test?
10. Try to chat with Evie (https://www.existor.com/en/) How realistic is she? Would she pass the Turing Test?
11. Try to chat with Renj (http://www.chatterbotcollection.com/item_display.php?id=3201) How realistic is he? Would he pass the Turing Test?
12. List of Chatterbots - http://www.chatterbotcollection.com/search.php?search=pandorabot
13. Which of the above chatterbots was the most like a real person?
14. What is the Chatterbox Challenge (chatterboxchallenge.com)?
